Nationally Competitive Scholarship Coach Announced

The Honors College would like to congratulate Dr. Lexey Bartlett, Associate Professor of English, on her selection as FHSU's new Nationally Competitive Scholarships coach!

Dr. Bartlett has a long history of work with nationally competitive scholarships, especially the Fulbright program, and has accumulated a distinctive record in her time at FHSU as a professor of note, chapter advisor of the Sigma Tau Delta English honor society and as a member of several campus committees. We are excited that she will be assisting FHSU students interested in applying for prestigious awards, such as the Rhodes, Truman, Marshall, and Gates/Cambridge scholarships, in a volunteer, service capacity. She will chair the Honors College Nationally Competitive Scholarships committee and work closely with Honors College personnel and students, though her services will be available to any interested FHSU student.

Congratulations again Dr. Bartlett!

- Matt Means, Director of the Honors College

Physical Plant Work Requests

Due to the recent move of departments reporting to a new dean or vice president, new account numbers were assigned to those department's accounts. If your department number has changed recently, i.e. a letter was added as part of the 6-digit account number, please make sure that the account number used on work requests is correct. Work requests route to the budgetary approver by pulling in the account number that is listed under each individual's name in the FHSU Address Book. Please make sure this account # is an active account.

To check that the account # is correct, go to Applications in Lotus Notes, find your name in the FHSU address book, click on the Work/Home tab, check the account number on the Department Number line, edit and save the new number, if an old number is displayed there.

It is important that the correct account # is listed on the work request in the event something is requested that will be charged back to the department. Please note that there is no charge for routine work requests such as light bulb changes, setting up tables/chairs, etc. Departments that switch between accounts for various requests may also edit the account # directly on the work request form. Work requests will not route to the budgetary approver if text is typed in the "Charge to Account No." box on a work request. Please make sure a current account # is displayed on this line.

If you have any questions, please contact Cheryl Schmeidler (4410) or Debbie Schuler (4424). Thanks very much!

Loan Program Opportunities - Presentation from SKIL Resource Center

Sponsored by the Office of Student Accessibility Services

Thursday, April 28 - 3:00 p.m.

FHSU Memorial Union, Prairie Room (upstairs)

Lou Ann Kibbee from the SKIL Resource Center in Hays, will be presenting TODAY about an alternative finance program available to persons with disabilities. A description of the program is provided below. If you are anyone you know could benefit from the information, please plan to attend.

If you would like, RSVP to disability@fhsu.edu - this will help us ensure adequate seating and handouts. Hope to see you there!

K-Loan is an Alternative Finance Program established and directed by persons with disabilities. It is a consumer-run program designed to provide persons with disabilities and their families with access to financial resources toward acquiring assistive technology through education, saving and borrowing. The project is guided by an Executive Advisory Board composed of individuals with disabilities, family members and representatives from Kansas agencies. Assistive Technology (AT) is any kind of device or tool that helps people learn, work, communicate and live more independently. AT can be very simple and inexpensive, like a modified knife and fork, or it can be very sophisticated and costly, like a computerized speech device. It can also be a modified vehicle, home modifications, a scooter or wheelchair, and much more.

An additional program is KS Telework that makes financial loans for the purchase of assistive technology devices and services necessary for employment by distance. The Kansas Telework Program is directed by persons with disabilities and will provide the financial guarantee necessary for personal financing of devices such as computer hardware and software, adapted peripherals, hearing and vision aids, and other devices necessary for work. The establishment of a Telework program provides a financial mechanism to develop employment opportunities and to support persons with disabilities in purchasing assistive technology devices and services needed to work from a remote site or at a Telework center.
